

# Hotels, Spas and Guesthouses

Whatever commercial laundry products and services you are looking for, you will find it at JTM Service.

## Washing Machines for Hotels

Whether you own a guesthouse or are the manager of a large hotel or spa you want your linen to have a professional finish for your guests. At JTM Service we have worked with a range of hotels, spas and guest houses to help you select the right commercial washing machines, tumble dryers and ironers to suit your requirements.

With your own laundry room you are in control of your laundry and not reliant on external companies to launder your linen. This means you can choose the programmes on your washing machines and tumble dryers to give you high quality results and also wash items when you want to rather than waiting for them to be collected.

## Laundry Solutions from JTM

- Get great wash results with our range of commercial washing machines and specialist detergents
- Use laundry trolleys that rise as laundry is removed, reducing strains on backs and knees of your staff
- Save money, with energy efficient wash cycles, correct detergent dosing and rotary irons that half the time of conventional irons
- Get rid of stains with our unique stain removal system that can tackle coffee to lipstick

## Laundry Products

Here is just a small selection of our products for the hotel industry, just click on an image to find out more.

### Stain Removal Gun

Reduce wastage due to staining. This great stain removal gun is ideal for removing spot stains such as oil, sauces, pen marks, coffee and lipstick
