

Darlington Borough Council

Sector: Social Housing

Equipment: Laundry

Response and repair times are critical in any sector but with dozens of homes often relying on one laundry facility, it is more important than ever in the social housing sector.

JTM works closely with Darlington Borough Council to deliver a tailored package of laundry solutions, from market-leading appliances and expert advice to cost-effective service packages which keep downtime to a minimum.

“Throughout the time we have used JTM Service, we have found them responsive, knowledgeable, and reliable. With any repairs completed quickly – which is important when 50 people rely upon the laundry within sheltered or extra care housing. When sourcing and purchasing machines we have found them informed, cost effective and trusted to find the right solution for the machine required. I have no hesitation in recommending them”

Vanessa Tully, Team Leader Lifeline Services

Service without compromise
