## Rotary ironer cleaning cloth Improve results and reduce damage

Your rotary ironer heat plate is subject to lots of stress with heat, various fabrics and constant use. Cleaning the ironer head is very quick and easy with a cleaning cloth available from JTM.

The cloth cleans the ironer head, removing any debris left behind from the linen such as fabric conditioner or starches. The cloth also conditions the ironer to give smoother ironing results, reducing the risk of damage to linen and clothes.

Free training is included with any cleaning cloth purchase!
