Rotary Ironer

HM 16-83

Rotary Ironer HM 16-83

Miele HM 16-83 for excellent results

- Roller diameter 160 mm
- Roller length 830 mm
- Max. throughput 15 kg/h at 20% residual moisture

The HM 16-83 is the ideal ironer for laundry operations where space is of prime consideration. As laundry is fed in and returned to the front of the ironer it is suitable for installation against a wall where it can be operated by one person. Though compact in size it is capable of processing a large number of items per hour to a high standard.

Easy to use controls

The controls are conveniently situated on the right hand side for easy operation. They include the roller speed control, temperature indicator light and On/Off button.

Safe operation

The Miele HM 16-83 has a patented finger guard and automatic stop mechanism for added peace of mind when ironing. At the slightest touch the roller will stop and the heater plate will lift off to prevent fingers getting burnt.

The ironer can be operated standing up or sitting down using a wide foot control bar. This leaves both hands free for feeding in and taking the laundry off the ironer, while the roller speed is adjustable to suit both the type of laundry and the working speed of the operator.
